

# Retail

Designed by **MS Solutions**, **MSS Retail** is a customizable, flexible integrated e-money solution that meets the highest security standards.

With **MSS Retail**, payments on EPT are integrated to the encashment system. Transactions are consolidated to offer comprehensive business data and robust reporting and analytics for the entire network.

## WHY CHOOSE MSS RETAIL ?

**PROCESSING**  
Relocate EPT transaction processing and centralize it at MSS Retail level

**INTEGRATED MONEY**  
Integrate payment to merchants encashment system

**MONITORING**  
Provide merchants with a real-time transaction monitoring interface

**Configurability**  
of the solution at central level to manage merchant accounts, shops, EPT, banks, hosts...

**Upgradeability**  
of the solution according to protocol choice to adapt with the host

**Flexibility**  
of the solution when a new protocol is used by the HOST
